

## EXPERT KNOWLEDGE.

- End-Equipment Expertise: Scientific/Medical/Pharma instrumentation, Industrial Products, Wearables Consumer Products
- Deep Understanding of the Product Lifecycle
- Complex mixed-signal systems
- High performance digital circuit design
- High precision analog circuit design, and RF

## INTEGRITY.

- We won't just tell you what you want to hear
- We will advise you on the best course of action
- You might not always like what we have to say, but you will always like what we do
- Upfront fixed pricing and schedule

## Ready for your next big project?

The experts at **A-WIT** can put the pieces together.

## THOUGHTFUL EXECUTION.

- Holistic System Architecture Development and Algorithm Development
- Engineering Documentation and Design for Manufacturability (DFM) Assessment
- Multilayer PCB Design & Layout with Signal and Power Integrity Analyses
- Rigid, Flex, and Rigid-Flex PCB Design
- Microprocessor/Microcontroller /DSP Firmware Development
- FPGA Design Implementation with Verilog or VHDL
- Software (iOS or Android apps, AWS or Azure Cloud)
- Failure Analysis and Corrective Action Report Generation
